

Editor's note: The Exchange Post introduces Milestones, a monthly feature celebrating associates who have been recognized for their years of service. The awards are listed in five-year increments—but we're also listing associates who have celebrated their first anniversary with the Exchange.

The first installment lists associates who received service awards in January and February 2025. Subsequent editions will be monthly, listing associates who were recognized the previous month. So the next Milestones, in early April, will list associates honored in March, and so forth.

Congratulations to all the associates below. There are a lot of them but omissions can happen. If you received a years-of-service award in January or February and you're not listed, drop us a line at exchange@aaafes.com.
